The Affordable Housing Program (AHP) is our largest and most impactful initiative - over \$895 million awarded since 1990 to develop more than 109,000 affordable housing units. AHP can be used to fund both ownership and rental projects. Grants are awarded on a competitive basis in one offering each year. Applications are typically accepted between June and August with awards in November.

Feasibility guidelines

Applicable to all owner project types

- If your project received leverage points, the project cannot exceed the approved percentage.
 - \circ AHP >= 1% but <= 25% of TDC
 - $_{\circ}$ AHP > 25% but < 50% of TDC
- For 2024 projects and forward, all owner project types are no longer required to fund 25% of project costs with funds besides AHP funds.

General information

AHP Development Budget

Applicable to all owner project types

- The Development Budget for your project type must list all construction/rehabilitation costs AND funding sources.
 - List only permanent (not construction) funding sources to the unit, including AHP.
 - The AHP amount must match on the Development Budget and Request form.
 - Donated land, materials, or professional labor/services must show an offsetting source on the Development Budget.
 - Provide a description for anything labeled as "other."
 - Total project costs MUST equal the sum of the funding sources.
- Changes cannot be made to the Development Budget after submission to FHLB. If changes are needed, supporting documentation must be provided and FHLB will determine if and how the Budget will be revised.

Evidence of all funding sources

Applicable to all owner project types

Type of Source	Documentation Required
Grant	Signed grant agreement with all exhibits/attachments
Member Contribution	Copy of cancelled check or letter from the contributor
Loan	Signed Note AND Mortgage
Fundraising/Sponsor Contribution	Listed as a source on the AHP Development Budget

- The amount of funding verified must match the amount shown on the Budget.
- All sources identified in your AHP application that received points must be used on at least one unit in the project by showing as a source on the Budget.

Land cost from a settlement statement

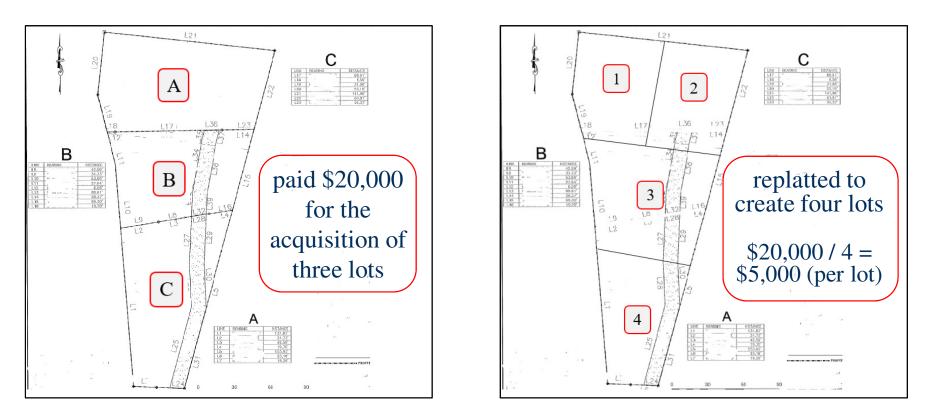

- Use the 'Contract sales price' from a settlement statement as the 'Paid Land Cost,' not the 'Amount Due from Borrower.'
- If the 'Contact sales price' includes the cost for more than one lot, divide the cost by the number of lots and that amount should be shown as the 'Paid Land Cost' on the Development Budget.
- The other costs on the settlement statement in the 'Gross Amount Due from Borrower' section can still be shown in the 'Acquisition Costs' section of the Development Budget but not the 'Paid Land Cost' line item.

J. Summary of Borrower's Transaction

100. Gross Amount Due from Borrower	
101. Contract sales price	\$15,000.00
102. Personal property

Paid land costs with a replat

To calculate the land cost for replatted lots, divide the total cost of the purchased lots by the number of newly created lots. The result is the cost that should be shown on the Development Budget for all units associated with the acquisition.

In this example, the Quitclaim Deed shows a paid cost of \$1,000 while the PVAs all have a sales price of \$0. Due to the inaccuracy, FHLB would not accept the PVA to verify a property donation since the lots were actually paid for, not donated.
